

Power Distribution Unit 4x10A 400 V

-each output with DC rated fuse & connector!

Description

The Power Distribution Module PDU410 is a DC rated distribution unit with built-in fuses.

Each distribution output has its own DC rated 10A fuse and DC rated connector

Fuse in (+) line, intended for grounded negative (TN-S grounding)

Features

- 4 DC rated distribution outputs (max 10A)
- In and output connectors DC rated.
- Locked safety connectors.
- Compact

(PDU410 in rack)

	PDU 410	
Input		
Input voltage range	300 – 400 Vdc	
Input current	Max 20A	
Output		
Output current	Max 10A	
Number of outputs	4	
Short circuit protection	4x10A fuses	
Mechanical data		
Weight	1.1 kg	
Width	19 "	
Height	1U	
Depth	80 mm	
Enclosure	IP 20	
CE		
Safety	EN/IEC 60950, class 1
