

DC cables

Thin

High current

SDG connectors

Description

The SDG plugs are common in modern IT equipment such as servers, routers and switches.

The DC rated plugs are compact, easy to install and arcing protected, they make the deployment of DC as simple as any standard electric equipment.

All our PDU's can be equipped with SDG outlets making installations safe and reliable.

Features

- First mate, Last break ground contact
- Latched, can't be accidentally disconnected
- Hot plug rated
- Arcing protected

CBL400_THIN	
Electrical	
Voltage max	+/- 400V +/- to GND 300V
Current max	16A
Standard length	2 meter
Available lengths	1/2/3/6 meter
Other data	
Cable diameter	8.5mm
Flammability class	EN 60332-1-2 (F2)
Halogen Free	No
Ambient temperature	75°C UL 70°C IEC
Standards	IEC 61984
	UL 1977 / UL817
